CONG. SMITH RENOMINATED

Wins by a Majority of 4,674, Carrying All Counties in District.

Cong. Frederick C. Smith is again the choice of Eighth congressional district Republicans for member of congress, defeating Robert T. Mason by a majority of 4,674 in Tuesday's primary to become a candidate for a sixth term in November.

In polling 10,915 votes, more than 60 per cent of the total Republican vote cast in the GOP contest for the Eighth district nomination, Congressman Smith carried all counties in the district.

He will be opposed in November by Andrew T. Durbin of Kenton who defeated John T. Siemon, also of Kenton, for nomination on the Democratic ticket by a much narrower margin. Durbin polled 5,451 votes out of 10,142 cast, receiving the nomination by a margin of 760. Siemon carried Hardin county, his home county, by nearly 500 votes but lost the other five counties in the district to Durbin.

The Democratic nominee is the son of the late William Durbin a leader in state Democratic party affairs for many years and at one time chairman of the state Democratic organization.

Hancock county strong for Smith in previous district elections, ran true to form, giving the largest majority of any county in the district, followed closely by Hardin and Crawford, each of which gave Smith a majority of nearly 1,000.

In Marion county early voting was fairly close as was predicted, with Congressman Smith gradually pulling away as precinct returns mounted. Final count gave him a 659 majority.

The vote by counties:

Hancock: Smith 2,822, Mason 1,547; Durbin 919, Siemon 815

Wyandot: Smith 698, Mason 452; Durbin 751, Siemon 383.

Crawford: Smith 1,374, Mason 386; Durbin 1,455, Siemon 1,008.

Hardin: Smith 1,743, Mason 795; Durbin 566 Siemon 1,036.

Marion: Smith 3,125, Mason 2,466; Durbin 1,403, Siemon 1,247.

Morrow: Smith 1,078, Mason 594; Durbin 357, Siemon 202.

County GOP Votes For Taft Delegates

Marion county voters turned out in about average numbers for the primary yesterday despite the fact there were few local contests on either the Republican or Democratic ballots

Interest in the balloting centered on selection of Republican presidential convention delegates the contest for eighth district Republican congressional nomination and county contests for Republican commissioner, prosecutor and sheriff and Democratic contests for commissioner and sheriff.

Total vote in the county was 9,118 with 6,696 ballots cast in the city and 2,422 in the county. There were 5,836 Republican ballots and 3,282 Democratic.

Taft Delegates High

County Republicans went straight down the line for GOP convention delegates pledged to Senator Taft. In the contest for delegates-at-large Carrington T. Marshall polled only 2,503 votes to trail Mrs. Katherine Kennedy Brown, who polled the lowest vote of the nine delegates pledged to Taft. Mrs Brown took last place on the slate of nine winners with 2,957. High among the Taft winners were Sen John W. Bricker with 3,816 and Gov. Thomas J Herbert with 3,684

County Republicans also bypassed Rufus Day, a Stassen-pledged convention alternate He trailed the field of ten alternate candidates. The nine Taft alternates won in the county.

There was no contest among the Democratic convention delegates, all pledged to William A Julian as the party's favorite son in Ohio.

Eighth district delegates of both parties were unopposed. The Taft pledged delegates are O. H. Hilborn and C. C. O'Briant. The Democratic delegates pledged to Julian are Monroe H. Crates and William B. Price.

County Contests Not Close

Only one contest for county nomination showed any signs of being close as the vote count progressed last night. That was the Republican race for prosecuting attorney. But Ralph E. Carhart, the winner, built up a lead at the close of 1,122 votes over Theodore Frericks.

Carl Lehner, Republican candidate for renomination as county commisisoner led a field of five candidates. Ray A. Reidenbaugh also landed one of the two places on the ticket. Lehner won by 1,051 over the third place man, Walter Bailey, and Reidenbaugh won over Bailey by 587.

Don A. Clark won the Republican nomination for sheriff, polling 1,940 votes more than his nearest rival William Rizor. There were four in the race.

In a two-way race LeRoy Retterer won the Democratic nomination for reelection, beating William Darnell by 1,693 votes. In a three-way race Lester Allen and Harry Boyd won the two Democratic nominations for county commissioner.

Unopposed Nominees

Remainder of the county candidates were unopposed. Mrs. Grace Zachman, Democratic candidate for renomination as county recorder, polled 2,746 ballots, the highest complimentary vote given by her party. Marion E. Hinklin, candidate for renomination as county treasurer polled the highest Republican complimentary vote was 4,970.

President Still Hopes For Rail Settlement

By The Associated Press

WASHINGTON, May 5 — The White House said today that President Truman still hopes for a settlement to avert the threatened railroad strike.

Presidential Press Secretary Charles G. Ross said the President holds to that hope despite the collapse of efforts to mediate the wage dispute.

Ross talked with reporters just before Frank Douglass, head of the National (Railway) Mediation Board, began a conference with Presidential Assistant John R. Steelman.

The conference was for Douglass to report on the collapse of negotiations at Chicago looking to an agreement between representatives of the railroad brotherhoods and of the carriers.

Strike Set for Tuesday

The strike has been called for next Tuesday.

Government attorneys say the President has power to seize the railroads. That would be a step of last resort.

David B. Robertson, head of the Brotherhood of Firemen and Enginemen, said White House seizure "will not settle the wage dispute—it will only irritate it."

Robertson made his comment to a reporter as Chairman Frank P. Douglass of the National Mediation board returned from Chicago to report to Mr. Truman that the board's peace efforts have been exhausted.

Douglass announced yesterday the failure of last-ditch mediation attempts. At about the same time, Francis A. Silver, general counsel of the office of defense transportation, disclosed that a World War I emergency law still on the books carries authority for government seizure.

Those Threatening

Those threatening to strike are the 190,000 members of the Brotherhoods of Firemen and Enginemen, Locomotive Engineers, and Switchmen. While they make up only a small part of the more than 1,250,000 rail workers, they run the locomotives and pull the switches. The lines would be crippled without them.

They want a 30 per cent wage increase and changes in operating rules. Other rail unions settled for the 15½ cents an hour boost which a presidential emergency board recommended as a fair settlement in the current dispute.

Taft Views Result As Stassen Defeat

By The United Press

WASHINGTON, May 5—Sen Robert A. Taft, today interpreted the result of the Ohio presidential primary as a defeat for Harold E. Stassen. Taft said he now had more first ballot convention delegates than any other candidate.

Taft issued a statement giving his analysis of the Ohio vote and expressing gratitude for the support he received.

He was particularly jubilant over the fact that Carrington T. Marshall, only Stassen candidate for delegate-at-large, was trailing the nine Taft candidates.

"At present time, Marshall, the single-shot Stassen candidate for delegate-at-large, is running last of 10 candidates," Taft said. Mr. Stassen announced that he would not regard it as a victory unless Marshall received a vote equal to the average of the nine Taft candidates.

"He is far below that figure, in spite of the confused ballot and Stassen's instruction to vote for only one candidate This was the only test on a statewide basis in Ohio."

Taft also quoted Stassen as saying the Minnesotan believed he would have to get 11 district delegates to be regarded as the winner.

"He may take seven or eight" district delegates, the Ohioan said. "It is significant that six of these delegates came from Akron, Youngstown and Dayton, cities which are strongly Democratic with a large labor vote There is evidence that many new dealers and radical Democrats crossed over and voted in the Republican primary on the request and instruction of Stassen managers.

"His majorities were made by the addition of this Democratic vote which in Ohio cannot effectively be kept out of the Republican primary. Mr. Stassen appealed to this vote and particularly to the labor vote of the cities by basing his campaign on a criticism of the Taft-Hartley law."

LEWIS ASKS DENIAL OF OPERATORS' PLEA

By The Associated Press

WASHINGTON, May 5 — John L. Lewis today asked a federal court to toss out a plea by soft coal operators for an order blocking pension payments to retired miners.

The order was sought by Ezra Van Horn, a trustee of the miners' $34,000,000 welfare and retirement fund. Lewis and Sen. Styles Bridges (R-NH) are the other trustees.

Van Horn asked for an injunction to bar $100-a-month pension payments under a compromise plan approved by Lewis and Bridges, but opposed by Van Horn.

The Bridges-Lewis agreement ended the recent strike in the soft coal fields.

Postal Clerk Finds Own Bonus Check in Mail

The first state soldiers bonus check delivered in Marion yesterday went to George E. Jordan of 235 East George street.

Jordan was without doubt the first veteran to receive his check here because he was the postal dispatcher who routed the mail which included the first 25 state bonus checks to arrive in Marion, Postmaster Homer D. Cole said today.

First report of the arrival of the checks was reported to The Star by Charles H. Reese, 29, a Marine veteran living at 912 Kenton avenue.

VETOES TIME SAVING

By The Associated Press

TIFFIN, O., May 5—City council voted four to three to adopt daylight savings time, but Mayor Virgil R. Bennehoff immediately vetoed the ordinance on the ground that a majority of residents were opposed to fast time. Council members indicated no attempt would be made to pass the ordinance over the mayor's veto.

MAJORITY OF CONTESTS IN OHIOANS' GRASP

Senator Now Seems Certain of 11 Contests; Leads in Others.

By The Associated Press

COLUMBUS, O., May 5—Senator Robert A. Taft's lead today stood at 15-8 over Harold E. Stassen in Ohio's GOP presidential race

As the counting progressed the vote indicated Taft might get a majority of Ohio's 23 contested presidential delegates.

Tabulation of votes from yesterday's Republican primary seemed to have carried the Ohio senator's candidates to victory in 11 district delegate races, on the basis of substantially complete returns.

Unless the tabulating trend alters sharply, he appeared almost sure to capture the sole delegate-at-large post for which Stassen entered a candidate. This would give Taft 12, the majority which Stassen predicted in advance he would take away from the senator.

Stassen apparently had elected six delegates and his candidates were leading in two other races, for a total of eight.

Returns from 7,663 of the state's 9,385 polling places in the statewide contest gave: Ed D. Schorr, Taft candidate, 268,200, and Carrington T. Marshall, Stassen supporter, 242,426.

On the basis of the incomplete returns, Taft apparently had elected two delegates each in the Sixth (farm), Seventh (Springfield), Sixteenth (Canton), Eighteenth (coal mine), and Twenty-First (Cleveland) districts. He was credited with electing one delegate in the Twenty-Second (Cleveland) district.

Lead in Akron

Taft's men led one race each in the Fourteenth (Akron), Twentieth (Cleveland) and Twenty-Second districts.

Stassen apparently won two delegate races each in the Third (Dayton) and Nineteenth (Youngstown) districts. He was credited with one delegate victory in the Ninth (Toledo) and Fourteenth (Akron) districts.

The former Minnesota governor's men led in one race in the Ninth and one in the Twentieth (Cleveland.)

Although Stassen's chance to capture a majority of the delegation had almost faded out of the picture, he still had a chance to reach the 10 which most politicians said he would have to get to call his Ohio invasion a success.

Taft, fighting to keep alive his hopes to corral the Republican presidential nomination, demonstrated widespread strength in his home state.

Stassen Picks Field

Although he got the small end of the ballot in many of the industrial centers where Stassen had picked his field, he ran well in some of these sections.

The Ohio senator already had said he would not quit the presidential race, even if he took a political lacing from Stassen here. If he holds Stassen to less than 10 delegates, his friends

KOREAN VOTE CRUCIAL TEST

Communists Boycotting Election To Make Southern Part Democratic State.

By The Associated Press

SEOUL, KOREA, May 5—Communism and western democracy are locked in a bitter behind-the-scenes conflict in the election scheduled Monday, May 10, in American-occupied South Korea.

The election is intended to create an independent Korean government.

The issue in plain sight on the center of the stage is the contest between two major rightist groups for control of the government-to-be and authority to say how it shall be patterned.

The Communists and pro-Communists of south Korea are boycotting the election. They have entered no candidates for the 200 national assembly seats. They denounce the program in their papers and at party meetings.

Their pet phrase for it is "an American imperialist scheme to gain control of Korea."

Almost daily roving gangs swoop into villages throughout southern Korea, attacking police boxes, election offices, and the homes of policemen and rightists.

At least 350 Koreans have died in these assaults.

Lt. Gen. John R. Hodge, U. S. occupation commander, calls the attackers "Communist stooges" and "mouthpieces of Soviet matters." He says their obvious aim is to prevent the election by terrorizing voters and officials.

American officials say democracy already has won the first round by a big margin. That was during the 10-day registration period that began March 30.

Communist attacks and threats ran high, yet 7,884,095 of the 8,216,851 eligible south Koreans registered. That was 95.9 per cent.

The Russians, who occupy the northern half of Korea, oppose the election and proposed instead that both occupation forces withdraw, leaving the Koreans to establish a unified government alone.

The United States rejected that idea as sure to lead to bloody strife. U. S. spokesmen say that if American troops left under such circumstances, the Soviet-equipped north Korean army of 200,000 would swarm over the south and would turn all Korea into a Soviet satellite.

Instead, the United Nations general assembly approved the American proposal for a general election, with U. S. and Soviet troops to leave 90 days after formation of a government.

A UN commission to supervise such a program arrived in January. It knocked on the door of north Korea and got an instant, frigid "no." The commission then decided to go ahead with its work in the only accessible area—the south.

Versatile Thespian in Galion Play Role

Special to The Star

GALION, May 5—Interest in high school dramatics has led Miss Patti Thompson to choose the teaching of drama as a career. She plans to enroll at OSU next fall.

Miss Thompson is rehearsing for the role of Lizzie Borden in the play "Nine Pine Street," to be given May 11 by the seniors at Galion High school. She has been active in dramatics since she was in the grades.

Under Mrs. Loren E. Beck, Miss Thompson studied expression. She has appeared on many programs. The last few years Miss Miriam Sayre, high school teacher, has been her tutor.

Miss Thompson has had parts in several one-act plays produced in Galion and nearby. Last winter she won both city and county Prince of Peace declamatory contest. When a junior she played in "Spring Green."

The plot for the senior class play, by John Colton and Carlton Miles, is based upon the true story of the Lizzie Borden murder case in Fall River, Mass., and is heavy drama.

Miss Thompson this year was chosen president of the Girls' Athletic association. She also toots a clarinet in the high school band and orchestra. She is the only daughter of Mr. and Mrs. M. G. Thompson.

REV. HARRY G. SAULNIER

MISSION LEADER IN AREA PROGRAM

Rev. Saulnier To Speak Here and at Upper Sandusky.

Rev. Harry G. Saulnier, superintendent of the Pacific Garden mission of Chicago, Ill., known for its rescue work throughout that city and "spiritual birthplace" of Billy Sunday, will be in this area this week to conduct one-night mission services. He will be at the Gospel chapel at Upper Sandusky Thursday night and at the Maranatha Bible church, Marion, Friday night. The services will include a message with stories of conversions of many persons outstanding in religious work and evangelism, motion pictures of the "mission in action," and singing. At both services Rev. Lanne Beausey of Upper Sandusky will lead the singing. Rev. Saulnier will tell the story of the mission, founded in 1877 in the Chicago slum district, originally the Pacific Beer Garden and renamed by Dwight L. Moody.

Rev. Earl L. Hollidsy, pastor of the Maranatha church, announced that the Friday night service here will be one of a number of one-night meetings planned to bring to Marion "outstanding speakers in the interest of the Gospel." The service at Upper Sandusky will be at 8 o'clock and at Marion at 7:30.

Look who gets squeezed!

Union leaders representing less than one-tenth of railroad employes reject recommendations of President's Emergency Board—refuse to negotiate except on their own terms—threaten to paralyze nation by strike!

THE LEADERS of three railroad unions, representing less than one-tenth of all railroad employes, have called a railroad strike that would paralyze the nation.

These leaders refuse to accept a 15½ cents an hour wage increase retroactive to November 1, 1947. This increase was recommended by an impartial Emergency Board appointed by President Truman.

This increase of 15½ cents already has been accepted by the 19 other railroad unions. But the Brotherhood of Locomotive Engineers, the Brotherhood of Locomotive Firemen and Enginemen, and the Switchmen's Union of North America won't accept what more than 90% of all railroad employes have accepted. They have called a strike to get more!

Unions refuse rules discussion

Certain rules changes demanded by these union leaders—which would increase wages still further—were recommended by the Board. But the union leaders want more—they demand that the railroads put into effect ALL the changes they asked for, including those the Board felt should be denied.

On top of this, they insist that certain rules changes proposed by the railroads be withdrawn—in spite of the fact that the Board recommended them! These union leaders have refused to negotiate except upon these arbitrary terms.

Greater wage increase not justified

Engineers and firemen are among the highest paid of all employes in America, as the figures in the box show. This strike threat doesn't justify giving a greater increase than other railroad workers received.

Emergency Boards are a means provided by the Railway Labor Act in the public interest to avoid strikes. The President's Board after hearing evidence for 33 days, made recommendations based on all the facts in the case. The railroads have accepted these recommendations.

Who's to blame?

Although they deplored so large an extra cost burden, the railroads accepted the report of the Board because they felt it was in the public interest to uphold the spirit and intent of the Railway Labor Act.

In contrast, this small group of railroad union leaders are attempting to flout the intent and spirit of the Railway Labor Act, and dictate their own terms.

They have dictated a paralyzing railroad strike.

You will be the victim!

How long will the American public stand for the undemocratic, arbitrary, and abusive use of the right to strike and disregard of the obligation to provide transportation? How long can the American people permit a few dictatorial union leaders to defy the processes provided for peaceful settlement of disputes?

Force seldom produces settlements that are either fair or lasting. Moreover, a point is often reached when personal interests must be held subordinate to the greater public welfare. That is why the railroads have accepted the Emergency Board recommendations. That is also why the leaders of these three unions should reconsider their decision to call a paralyzing strike.

Compare these wages with what *you* make!

Here is a comparison of average annual earnings of engineers and firemen for 1939 (pre-war) and 1947. Also shown is what 1947 earnings would have been if the 15½ cents per hour increase, offered by the railroads and rejected by the union leaders, had been in effect throughout the entire year 1947.

Type of Employe	1939 Average Annual Earnings	1947 Average Annual Earnings	1947 Average Annual Earnings with 15½ Cents per Hour Added

Back To the Beginning

THE certainty that President Truman will have to use the full power of the national government again to avert a railroad tieup completes a White House cycle.

There was a time when Mr. Truman believed he could hold the New Deal's labor support in line by playing ball with the right labor leaders. No one can say he didn't try. But on May 25, 1946, an embittered Chief Executive asked congress for authority to draft strikers into the armed forces, obtain injunctions against labor leaders and take away seniority rights from workers who struck against the government. A railroad strike had made him lose his temper completely. If Senator Taft had not blocked its passage, the most drastic labor legislation ever proposed to congress would have been rushed through in a matter of a few hours. Union labor never looked on Harry Truman with favor again after that episode.

Unpopular Proposition

EITHER management or the labor unions had to take a stand against continuing the wage-price spiral, unless both were willing to let inflation blow itself out.

Such a stand was certain to be unpopular. No one loves the killjoy who talks about the end of the hayride. It was certain that no union leader would make the first move because of this circumstance, even though dreading the ultimate consequences of inflation.

The responsibility would be left to management, which is the first to be aware of consumer resistance to prices. That awareness recently has been sharpened by evidence of a decline in ability to buy. It has been followed by the first moves in a management drive to stabilize wages and prices.

Numerous negotiations between management and union labor are stalled because management refuses to appease wage bargainers with higher pay rates for the same or lesser amounts of work. An epidemic of strikes is being threatened by union spokesmen in retaliation for this effort to stabilize wages and prices.

No one wants strikes, but as between strikes and a third round of wage increases, the strikes might be preferable—if that's the price the country must pay for proving what everybody knows is true. Wages can't go higher forever unless prices can go higher forever. And they can't.

The Franklin Half-Dollar

CONGRESS is trying to stem the flood of applications for commemorative coins, but no one will begrudge the commemorative half-dollar struck in honor of Benjamin Franklin. He was a versatile man who as a senior statesman helped see the young republic through its early travail.

Two hundred years ago, Franklin, just turned 42, sold his printing business to his foreman and retired to pursue his quest for knowledge. Already he had invented a stove, founded the forerunner of the American Philosophical society, written several books of aphorisms, laid the foundations for the first public library, served as deputy postmaster for the colonies and improved Philadelphia's street lighting.

In the years to come, he was to perform his famous experiments with electricity, serve in many capacities in the colonial government, help draft the Constitution, help negotiate the peace with Britain and serve as ambassador to France. One of his last public acts was to sign a memorial to congress asking the abolition of slavery. Franklin's reputation hasn't lost its luster with the years.

Setback for Hawaii

HAWAII'S chances for statehood have declined substantially with the announcement by Senator Butler of the public lands committee that there is "no chance" for action this year. The senator says the full committee must visit Hawaii before making a decision and that cannot be done before November.

The reason for the decline in the statehood drives for both Hawaii and Alaska is congress' reluctance to release the federal grip on areas separated from the continental United States as long as world turmoil persists. Meanwhile, Senator Butler says Hawaii may be granted the right to elect its own governor, as Puerto Rico will do beginning next year. This will hardly satisfy Hawaiian statehood proponents.

The arguments for Hawaiian statehood are many and not easily refuted. His apparent setback in the senate won't cause the plan to die.

Scanning the Record

By George E. Sokolsky

Two Types of Parade in New York.

ON May 1 two parades marched the streets of New York: the parade of the loyal; the parade of the disloyal. The latter is an annual event, a feature of the international world revolution, a symbol of those who once believed in human liberty but have now become the agents, spies, provocateurs of Soviet Russia. The May 1 international celebration has often been accompanied by bloodshed and civil war. It has been adopted by Soviet Russia as its own. The loyal parade was a spontaneous expression of love for the United States of America by Americans.

SOKOLSKY

It was astonishing how many marched in the loyal parade. For actually, most Americans are loyal to their country and require no special demonstration to assert the fact. They are loyal day by day. They are loyal to the traditions of this land without feeling the need for external manifestations. Yet they marched, if for no other reason than to establish that that other display was a weak and tawdry thing, an ugly excrescence in a fair city.

But this also is demonstrated: The Communists were free to march and to announce their fealty to Stalin and their loyalty to Henry Wallace. Wonderful company Henry has got into! They shouted their hate for America and their love for Henry and he took no steps to repudiate the association. Poor, old Hank! Driven by ambition, he now plays the role similar to that of the lovers of Germany before the United States entered the war against Germany, the role of one, whose ambitions having been thwarted, uses any medium to project himself on the political arena.

There must be many in the United States who do not accept George Marshall's foreign policy as the acme of wisdom; but they also do not accept the leadership of the nation's official fifth column.

Was Henry's Show

The May 1 parade of the Communists was, in New York, a Henry Wallace parade. The street-hawkers sold Wallace buttons and Wallace neckties—along with the usual Communist paraphernalia. It is increasingly difficult to believe that one reared in Iowa, of a Republican agricultural family, one who had held the second highest office in the land, could permit himself to be so used.

The loyal parade suffered one serious omission and it was noted. Not a single contingent appeared of the National Guard or of the armed forces of the United States. The absence of these units was too complete to prevent any other conclusion than that orders had come down from Washington forbidding them to march in the loyalty parade. No one prevented the Communists from marching in United States military and naval uniforms; someone must have issued a "confidential" instruction to keep loyal military contingents out of the loyalty parade. Who did it?

Presumably, it is a continuation of that stupid policy, pursued by our state department, that the United States must go easy on American Communists while we continue to do business with their mother country. That policy was best expressed by James Byrnes, when he was secretary of state, in reply to Representative Bartel J. Jonkman of Michigan:

"You must realize, congressman, that it is a difficult matter to do wholesale firing of people merely because they belong to what is here a minority party, when the same party is the sole and dominant party of a great country with which I have serious and difficult diplomatic negotiations."

In a word, our government recognized that an American Communist could be protected, even in a spying job within the government itself, by Stalin. This was the most amazing admission of unprincipled expediency, of impotence even to defend the country; some similar attitude must have been responsible for the universal absence of any military or naval contingent from the loyal parade. Certainly, the National Guard should have been there.

But never mind all that: It was a grand exhibition of loyalty, and the mayor of New York, Bill O'Dwyer, was in the grandstand to give the loyal marchers his official blessing. Apparently, Bill O'Dwyer was not worried lest Stalin disapprove. Next year, perhaps, millions will march. Let us make May day American—as every day should be.

The Heart of Our Defense

By Joseph Alsop

WASHINGTON

THE Congress seems increasingly certain to flout the President and Secretary of Defense Forrestal in the matter of the 70-group Air Force. But the important point is that the decision of congress will not genuinely settle anything. The real difficulty only indirectly reflected in the squabble over the correct size of the Air Force, is the continuing failure of the services to agree on any unified strategic concept.

Joseph Alsop

The difficulty grows more acute, moreover, as the time draws near for concerting security plans with the western European union. American production cannot easily be stretched to provide arms for France, Britain and Benelux while peace among the services is expensively (and unsuccessfully) bought by "balanced" investment among air, naval and ground forces.

The system of "a pistol for the rat, a pistol for the badger, a pistol for the mole" is simple to the point of being simple-minded, but it is also shockingly costly. And it will not be easy, either, to concert security plans with the Western Union, when we have no fully agreed long-range security plans of our own. What, then, is the real origin of this inter-service row, which is making a mess of all defense planning?

Matter of Rivalry

The apple of discord is a single, simple question: "Who shall have the main role in striking the knockout blow?" With varying degrees of reluctance or enthusiasm, the services accept two points of doctrine. First, another long war would bring ruin to the victor as well as to the vanquished. Second, the creation of absolute weapons, such as the atomic bomb, makes it probable, although by no means certain, that another war can be shortened by striking an initial knock-out blow. It is therefore a good gamble to plan on the basis of a minimum security force, plus a striking force which would deliver the knockout blow.

Obviously, until long-range guided missiles can be perfected, atomic bombs must be carried to their targets in aircraft. The trouble is that in the minds of the Navy, and even of the Army, that does not mean the Air Force is to predominate in the grand effort of the knockout blow.

The Naval View

The Navy argues that air bases on land are rendered insecure by the Soviet Union's huge ground forces. Therefore the Navy pleads that planning for the knockout blow must center around, or at least generously provide for, the construction of gigantic carriers capable of launching bombers of considerable size and range. Each such carrier will cost above 150 million. Its supporting task force will cost one billion or so more. No tactical answer has yet been found for the German long-range, high-speed radar-proof submarine, which is the core of Soviet naval strength. Nor have weapons yet been devised to protect the costly carriers against really powerful air attack. None the less, the investment in the naval air arm is currently almost as great as the investment in the Air Force itself.

The Army, whose corporate interests are less endangered than the Navy's, takes a position closer to that of the Air Force.

The Army demands that planning include provision for offensive effort on the ground to take and hold air bases, on the North African coast for example.

Finally the Air Force asserts that after war begins, the knockout need involve neither powerful naval forces, nor even ground forces on any great scale. What are wanted, according to the Air Force, are prepared and provisioned air bases, sufficiently distant to be unreachable by enemy armies for a few weeks at the most.

Weak Air Defense Seen

From such bases, existing aircraft like the B-29 and B-50 can reach the vitals of the Soviet Union. Despite their hasty production of German jet fighters, Soviet air defenses are considered decidedly weak, owing to deficiencies in warning system, etc. A few missions, getting through successfully, can accomplish the same destruction of the Soviet vitals that tens of thousands of B-29 sorties were need to accomplish in Japan. The air bases may then be temporarily lost. But once the vitals have been destroyed, the whole organism must grind to an eventual stop.

Such are the conflicting concepts. Curiously enough they have been roughly reconciled on the lower levels, even among the planners of the joint chiefs of staff. At the top, however, the leaders of the services are so conscious of the corporate interests they represent that there has been no real agreement. At Key West there was infinite bitterness, the greatest tension, yet nothing much more was accomplished than to aprove the status quo. But since the country has neither the funds nor the productive resources to allow each service to implement its own concept to the full, what we get is simply a half-worthless compromise.

Cycles for Invalids

By The Associated Press

MOSCOW—The Kiev motorcycle factory has turned out its first vehicle for invalids.

The machine, its producer stated, can be operated by persons with only one arm, persons with one arm and one leg, or by invalids with only one arm and no legs.

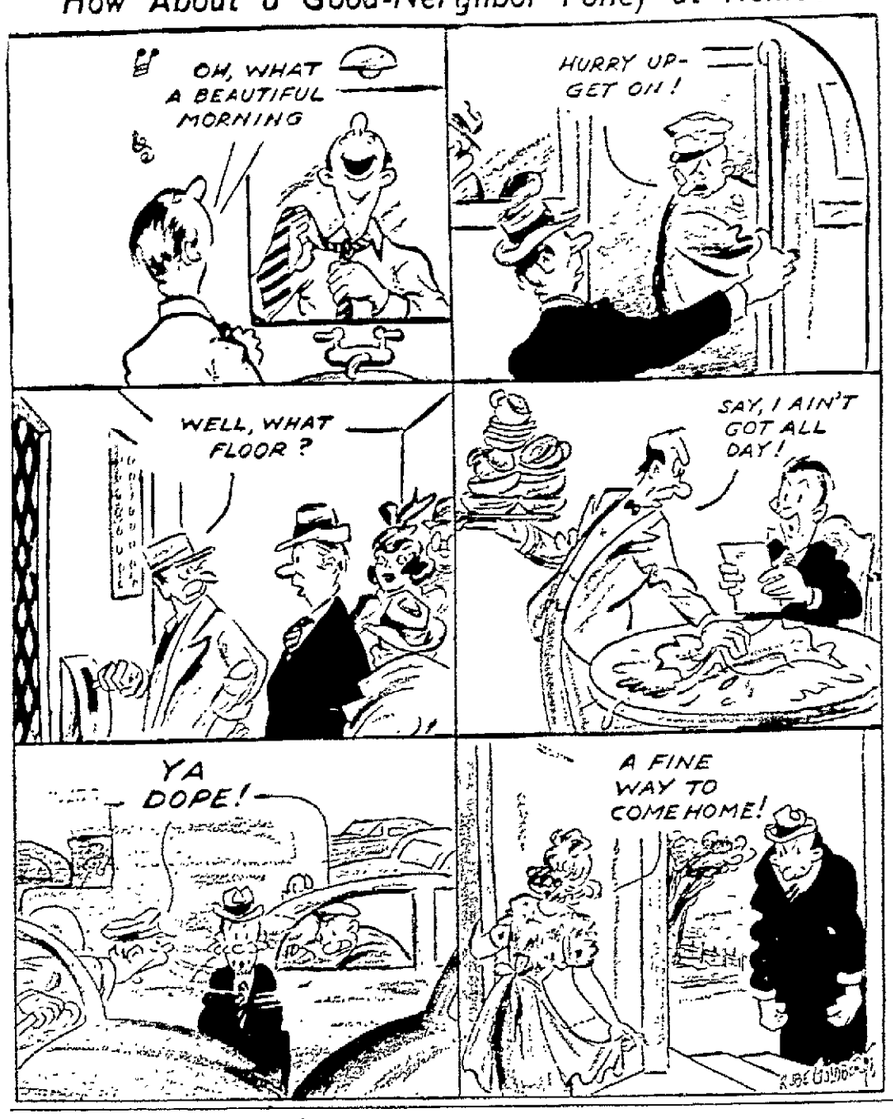

All the necessary mechanisms for operating the motorcycle—a three wheeled affair—are located on a single metal driving rod. These include steering, self starter, brake, accelerator and horn.

The machine has a rack for holding crutches, a baggage compartment and an extra tire.

French Premier Optimistic

Says Communists Have Lost Their Chance.

FRANCE'S youthful, energetic Premier Schuman is confident the Communist threat to France has been checked, writes Curt Riess in a North American Newspaper Alliance dispatch.

Schuman says the biggest mistake the Communists made was to call political strikes toward the end of 1947. The people were sick of strikes, and their reaction to them, plus the great upsurge of morale as Marshall Plan aid moved nearer reality, killed off whatever chance the Communists had.

Riess asked how the Communists would fare if there were elections in France today. Schuman's reply:

"The Communists would lose heavily. They might lose half their votes. And De Gaulle, too, might lose. This only seems to be a contradiction. Do not forget that many people voted for De Gaulle because they were afraid of the Communists. Now that their fear has subsided, why vote for De Gaulle? That does not mean that the general is finished; far from it. In the final analysis he will decide that question himself.

"If De Gaulle makes up his mind to be once again a man who stands above all parties, there is nothing to stop him from becoming the great national hero of France. That, of course, would spell disaster for his own party. If he continues to lead that party and gets involved in the politics of the day, De Gaulle will lose more and more prestige, and his party will not have any advantage either."

When this correspondent mentioned that Mr. Schuman seemed too optimistic, he snapped. "Not at all optimistic! I am just what I have always been: A moderate."

Reverting to the possibility of a Communist danger: "There isn't any! The Communists got 30 per cent of the votes in the last election. That is a lot, admitted. But ever since then they have isolated themselves—or have been isolated, which means the same in the end. They are on their way out. And though their leaders are far from admitting it, they know it well. They can do nothing. They played their top cards last December and lost . . . A 'coup a la Prague' is no longer possible in France. It might have been two, three years ago, though I doubt it. Now this danger is over.

"If there were a war? If the Russians invaded the country? Well, in the first place I do not believe there is a chance of it. That psychological moment, too, has passed. The Russians are not stupid enough to ignore that they would be fought, eventually, by every peace-loving country in the world. And once the American presidential election is over, they will risk even less. But suppose they should come. Well, I for once, am convinced that of the 5,000,000 who voted the Communist ticket in France, perhaps 1,000,000 would welcome the Red army. The others would fight just as every good Frenchman would fight.

"Incidentally, there isn't much fear of a war in France. Of course, there is a certain amount of nervousness about the relations of the P. S. and Soviet Russia—much more, in any case, than about our own problems—but there is a certain quiet optimism which, in a way, tends to embrace all problems and difficulties of inner and foreign policy. There is a general feeling that the worst is over and that France and the whole of Europe will somehow muddle through to face a brighter future."

Death Rate and Income

A SURVEY of 92 cities of more than 100,000 population shows the death rate in the American family decreases as income of the homemaker increases.

The report, first of a series by the United States Public Health Service dealing with all the counties in the nation, also showed that the average mortality rates for syphillis, chronic diseases, influenza and pneumonia, appendicitis and hernia decrease consistently from the lowest to the highest income groups.

As was true for the total death rate," the report said, "the decrease between the lowest and middle groups is much greater than that between the middle and highest groups."

The report showed, however, that for the infectious diseases, for tuberculosis, pellagra, diseases of the ear, nose and throat, the average rates decrease between the lowest and middle groups, but show a slight increase between the middle and highest groups.

The increased income group has a higher rate for goiter disease and motor vehicle accidents. This group also showed increased rates for cancer, cirrhosis of the liver and diseases of the gall bladder.

"There seems to be no association with income for diabetes and ulcer of the stomach," the report said.

The survey showed the rate of infant deaths per 1,000 live births as follows: highest, 37.5; middle 41.1; and low 47.9.

"The average total death rate decreases sharply between the group of cities with an average income of $668 per person in each family and the group with an average income $789," the report said. "There is a slight additional decrease between this middle group and the group with an average income of $918."

Purpose of the survey is to help find an "understanding of the causes" of the variation in death rates in population groups.

The Kremlin and the Injections

("It is reported that Marshal Stalin ... ing injections which it is claimed may ... him live to be 150."—News item).

Stalin (pacing the floor of Kremlin)—The doctor isn't here yet. It's 24 hours since my injection and I've lost the five years I may have gained yesterday.

Doctor (entering suddenly)—Ah! Are you ready for your shot?

Stalin—Yes, and if you had been any time you would have been the one shot!

Doctor—How do you feel this morning?

Stalin—I won't be sure until I consult Pravda.

* * *

Doctor—Well, I think I can promise you results.

Stalin—What do you mean you THINK? I got to be positively. I've been taking the shots six months and I don't feel as good as expected.

Doctor—Just what do you mean?

Stalin—Well, I don't feel absolutely sure of living another 80 or 85 years. Who perfected this serum?

Doctor—Dr. Bogomolets.

Stalin—How long did he live?

Doctor (sadly)—He died at 64.

Stalin—This is a fine time to tell me that.

Doctor—Roll up your sleeve.

Stalin—I'm so full of punctures now you can see through me.

Doctor—Is that bad?

Stalin—Certainly. Nobody should see the heart of a Russian!

* * *

Doctor—I can give you the shots in the head.

Stalin (in disgust)—After all these years somebody should shoot Joe Stalin in the ...

* * *

Doctor—Well, I can give it to you in the ...

Stalin—Hah! That's what Roosevelt thought.

* * *

Doctor (giving him a shot in the arm)—There. Did that hurt much?

Stalin—Nobody is going to get hurt much by these injections work, but if they don't work—

Doctor—That's all right; I've already said goodbye to my family.

* * *

Stalin (suspiciously)—As a matter of fact I feel older today than I did yesterday, and I can't all be due to The Voice of America.

Doctor—Remember, under the Russian system it would not be right for you to feel too young too fast.

Stalin—Why not?

Doctor—It's too capitalistic.

* * *

Stalin—Is Molotov getting these injections?

Doctor—Yes sir

Stalin (getting Molotov on the phone)—Hello. This is Joe. How are those injections working with you?

Molotov (full of pep)—Great! I don't feel a day over 18.

Stalin (hanging up phone and addressing a Kremlin soldier)—Ivanoff, take this doctor out and have him liquidated.

SOME cities are proposing to outlaw pinball machines. They are an evil influence. The sight of the kiddies popping a marble through chutes and gimmicks disturb mom and pop so much that they can't get on with the more engrossing job of going after all the money in double-or-nothing games, beat-the-banker endeavors and "Will-ya-take-the $1,000 or ... ten?" radio gambles.

Detroit has barred 64 kid comics magazines. Here and there you run across an American city that seems to give a darn what happens to its children.

THE COUNTRY EDITOR SAYS:—

Hunk Doody's boy, Scat, who ran the milk truck off the bridge, ruined the motor, burned sold the tractor, set fire to the cow barns and ran off with Caleb Swamproot's wife, has agreed to come home and have it all explained by a psychiatrist.

A clerk who stole $800,000 from his employer has been let off with a sentence of two and a half years. With good behavior he will be out early next year. This makes the Crime Doesn't Pay programs slightly unconvincing.

Never Hit a Lady

By TRUMAN TWILL

For this baseball fan's money, Salisbury, Md., has been monkeying with a million-dollar idea for the game's improvement—women umpires.

One of the last things every mother tells her boy before he goes out into the world is, "Never hit a lady." A female arbiter would short-circuit most of baseball's rhubarbs before they get started.

If she couldn't get respect, she could at least demand courtesy, which would be a net improvement. And in cases where her demands for courtesy was ignored, the umpire-baiters would have to stand in their true light—as a bunch of blowsy pests that should be thrown out of the park.

For years they've been putting on a roughneck act for the benefit of the rowdy element in the stands, with about as much sincerity as them as professional rasslers who pretend to be villains or heroes, depending on the script. Here's at least one cash customer who's fed up with them.

And don't let any misogynists start yelping that women don't know enough about baseball to be umpires. They know plenty about it—more ones who are interested. Thousands of them play it. Millions follow it closely. The best pitcher on this writer's neighborhood team was a chick named Clara. Women would make first-rate umpires if they had a chance.

The chance would be worth giving to them if it made a dent in the thick skins of baseball who think they have to protest every close decision in a ball game and breathe heavily on the umpire while doing it. They are the evil-doers who have kept alive one of the most un-American practices tolerated in the fair name of Americanism.

They know, the umpires know and the customers know that baseball, like the United States itself, is built on the rules of the game that someone must call the plays as he sees them; and that to try to do it any other way would be hopeless. Yet, the umpire-baiters keep squawking, breathing heavily on the guy who draws his pay for making it possible to play ball at all. In the upside-down reasoning of a lot of chuckle-headed characters, this is the essence of Americanism. Nuts to it. Throw 'em out. Kill 'em! Get 'em a pair of glasses! Which side are they playing for, the bums?

Here's one vote for the Salisbury plan, even if started as nothing but a stunt. Umpire-baiting needs to be evened up and leveled off. Women umpires might be the answer. "Yer out!" she says. "Oh I am, am I?" he bellows. "Why you pardon me, lady, I forgot myself. You're somebody's mother. All right, I'm out. I admit it, mom. My own deal old mother told me never to hit a lady, giving you the benefit of the doubt. And now if you'll pardon me I must be getting back to the bench . . . you, you, you lovely thing."

The word "carat," the name of the weight unit for jewels, derives from the Mediterranean carob tree, the seeds of which are of very uniform weight and were used in ancient times as a measure of weight.

WASHINGTON

...E a housewife or clerk ...ard to think of foreign ...something that affects ...

...goes, sooner or later, be- ...t of our prosperity and ...sperity, is wrapped up ... trade.

...are an American busi- nessman or farmer with things to sell here or abroad foreign trade affects you directly

And now once more as in other years, Democrats and Republicans are quarreling over the way we handle our foreign trade

James Marlow

The root of the argument goes deep. But it is not hard to understand if you look back a bit into American history. Here's the background:

You made shoes. A man in France made shoes. He was able to sell his shoes here cheaper than you. He was ruining you.

You appealed to our government for help. The government set up a tariff to protect you from the foreign competition.

Which meant: There was a tariff or duty or tax on every one of the Frenchman's shoes coming in here for sale.

IF THAT TARIFF was high enough, he'd have to sell his shoes here at a higher price than yours, if he wanted to make a profit.

So you got a break, called tariff-protection because the tariff put him at a disadvantage in selling in this country. That's an old story.

It's an old story in every country. Suppose you had tried to sell your shoes in France in competition with the Frenchman's.

HIS GOVERNMENT would set up a tariff on your shoes to give him the same break this government gave you.

Just carry this idea far enough—every country shutting out imports with gigantic tariff walls—and foreign trade drops dead.

The Republican party from away back has been a high-tariff party—meaning high tariffs to protect American farmers and manufacturers from foreign competition here.

In 1930 when the Republicans controlled congress, they passed the Smoot-Hawley law, boosting tariffs to the highest point in our history.

OTHER COUNTRIES, finding it tough to sell their goods here, took action of their own.

They either boosted their tariffs against us or set a limit on the amount of goods we could sell them.

That period, when the Smoot-Hawley law was operating, also saw the beginning of the world-wide depression. Our foreign trade, badly smashed by the depression, was shot to pieces.

The Democrats came to power in 1933. To revive our foreign trade, the Democratic-controlled congress in 1934 passed the reciprocal trade agreements act. It worked like this:

IF A COUNTRY WOULD take some of our goods, lowering their tariffs, we'd take some of their goods, lowering our tariffs.

This didn't apply to all their exports. We'd lower tariffs only for certain agreed-upon items.

That law now permits our tariffs on certain items to be cut as much as 75 per cent below what they were in 1934.

The trade agreement act was not set up to last forever.

Every three years or so since 1934—in 1937, 1940, 1943 and 1945—it has come up in the Democratic-controlled congress to be reviewed, and renewed or killed.

On June 12 the three years are up again and the whole act dies unless congress once more renews it. And now for the first time a Republican congress will decide what to do about the act.

WRITES TO UPPER CHIEF TO LOCATE HER MOTHER

Special to The Star

UPPER SANDUSKY, May 5—Unable to uncover the requested information Police Chief Adolph Kirchner today released for publication a recently received letter and asks anyone able to help to let him know. The letter reads:

Dear Sir: I am writing to you to see if you could please help me locate my mother, who I understand either lives in Upper Sandusky or did some years ago. I was adopted when I was a baby and my foster parents have both passed away, and I have found out I was adopted.

My foster parents were Thomas and Elizabeth Winters. They lived in Findlay, O. until I was eight years old, when we came to Oklahoma.

My own mother's name was Kitty Beyers (or Byers); this was her maiden name. I understand she married a man by the name of Hamilton who worked for an insurance company.

I was born in 1900 Jan. 25. I would like very much to get in contact with her if I possibly can in any way. If you can assist me in any way I will be very grateful. I remain,

Mrs. Pearl B. Lunn,
Box No. 5
Bowden, Okla.

CUB SCOUTS AND PARENTS NAVAL STATION VISITORS

Members of Pack 29, Cub Scouts, sponsored by Forest Lawn Presbyterian church, and a number of parents of the boys, were guests of the U.S. Navy Sunday when they visited the Navy station at Port Columbus. Thirty-eight Cubs and 30 parents, representing the local pack, were conducted on the tour by Chief Warrant Officer Pinyard, a former resident of Marion and now living at New Albany.

The group was taken through a large bomber, the technical service commander, the weather tower, and a number of other places, and was shown radar mechanisms and various automatic weapons.

The three-hour tour which started about 12:30 was followed by the showing of moving pictures dealing with Naval training. Early in the evening, members of the Marion group were guests of the Navy at "chow."

Herman Powelson, cubmaster of the Pack, was in charge of the trip, assisted by Bob Griffith, assistant Cubmaster.

SEE MARION OUTLOOK INDUSTRIALLY GOOD

Reports Made at C. of C. Council Meeting.

A bright picture of local industrial conditions was presented by members of the Manufacturer's council of the Marion Chamber of Commerce at their regular meeting Monday noon at Hotel Harding.

A concensus of the 19 manufacturers' representatives present disclosed the following to be the industrial outlook in Marion as of this date:

"Under local plant operations and business trends it is generally conceded orders are arriving in normal amounts, practically no cancellations of existing orders occur, and over-all production is good except where held back by material shortages. Steel and pig iron were said to be the most critically short items here."

Council Vice Chairman Don A. Howard led the meeting in the absence of Robert J. LaMarche, regular chairman.

Guests at the meeting included Col. H. L. Robb, commander of the Marion Engineer Depot and Robert W. Fay, newly appointed local manager of the McMillen Feed Mills, Inc.

ARMY OKAYS ROAD RETURN

Question of Highways in Scioto Area Now Up to War Assets Administration.

The Army engineers have raised no objection to the return of approximately 14 miles of county roads within the Scioto Ordnance lands to jurisdiction of the county commissioners, it was learned today.

Final say on the disposition of the routes acquired by the government for war plant purposes during the war is now up to the War Assets Administration, according to a communication received by the commissioners from the Army engineers' Louisville, Ky district office in Louisville, Ky

Declared Surplus

C. B. Raymer, engineers district real estate division chief told the commissioners that all areas of the plant have been declared surplus property except the magazine area, fuze line No. 8 and the staff house area.

Fuze line No. 8 has been set aside for Ohio National Guard uses and the staff house area is now under the administration of Col. Holland Robb, Marion Engineers Depot chief, for utilization by depot personnel

Raymer in turning over the commissioners request to the War Assets Administration suggested that should a representative of the disposal agency visit Marion to discuss the matter, a conference should be held with Col. Robb concerning the staff house area. It was also suggested that any action for reopening of public roads should coincide, the transfer of approximately 1,275 acres of land in the storage area to the Atomic Energy Commission.

No objection to reopening the road in relation to the staff house area was made by Col. Robb in informal discussion with county officials

Roads within the Scioto Ordnance Plant area and formerly part of the county system include the Likens, Lucas, Kenton-Galion, Linn-Hipsher, part of the Marion-Williamsport and Pole Lane roads. Action to return them to county jurisdiction was initiated several weeks ago after petitions by property owners seeking use of the roads had been filed with the commissioners.

Harding, both of Indianapolis; Daniel W. Brickley, Marion; Walter A. Noble, Lima; P. H. Kilbourne, Dayton, and Warren M. Dodge Jr., Battle Creek, Mich.

A justice department announcement charged the companies "boycott and refuse to sell eye glasses and parts to patients served by doctors who refuse to accept rebates."

TWO SOUGHT IN CUTTING CAPTURED

Special to The Star

MT. GILEAD, May 5—Sheriff Tom England captured Kenneth K. (Red) Campbell, 40, at 12 noon yesterday at an Iberia filling station near here.

Campbell and his 20-year-old wife Phyllis were the object of a statewide search Sunday night after warrants were filed against them by Morrow County Prosecutor Leo McCarty in the slashing of Jantha Barnett, 15-year-old sister of Mrs. Phyllis Campbell.

Sheriff England said today that shortly after the capture of Campbell at noon yesterday he confessed fleeing the county with his wife and having returned to Iberia after taking her to Athens, O. A radio contact with Athens authorities resulted in the arrest of Mrs. Campbell, who was returned last night to Morrow county jail.

Jantha Barnett was taken to Cabon City hospital Sunday night with cuts about the left wrist and right hand. Her condition is reported as "good" today by hospital attendants.

Sheriff England said both Campbell and his wife probably will be arraigned in the court of Mayor Roy Bennington of Mt. Gilead later today on charges of assault with intent to kill, which will be filed by Prosecutor McCarty. A further investigation of the cutting incident is in progress, Sheriff England said.

Former Marion Man Wins Stark Co. Race

Harry Grossglaus of Canton, formerly of Marion, won the Republican nomination for sheriff of Stark county, in yesterday's primary. He is the son of Mrs. Lula Grossglaus of 477 Windsor street and was graduated from Harding High school.

Mr. Grossglaus left Marion to take a position with the Ohio State patrol in 1933, later going to Canton, where he joined the staff of the prosecutor's office as an investigator, a position he has held for the last 10 years.

After leaving school here he was employed for a time with the Marion Steam Shovel Co. His wife before their marriage was Miss Virginia Clark of Marion.

One of three candidates for the office, Mr. Glossglaus won the nomination easily. His vote was 13,602 as against 3,615 for Paul W. Gerber, 4,981 for Paul V. Kestel and 4,259 for Walter E. Miller.

In the November election, Grossglaus will oppose Sheriff Dick France, who won the Democratic nomination over two of his former deputies

TWO BOYS, 16, HELD IN THEFT OF AUTO

Picked Up After Stolen Car Is Wrecked.

Two 16-year-old boys were arrested by city police last night and charged with auto theft a day after police found the car, a station wagon owned by Roy C. Buckingham of 296 Uncapher avenue, crashed into a tree at the intersection of Uncapher and Bennett streets.

One boy is from Marion and the other from near Prospect. The car was stolen from in front of Buckingham's home Monday evening and shortly after receiving a report of the theft, police were called to the scene of the crash on Bennett street.

Witnesses to the collision reported that two boys had jumped from the car after the crash and fled.

But working on the clue that one of the boys must have been injured since the windshield was broken and there was blood on the front seat of the car, police yesterday picked up one of the boys, who had abrasions about the head, and he admitted the theft, implicating the other, who was picked up at his home about an hour later.

The boys are being held in the detention home pending arraignment in juvenile court.

In connection with the theft, Police Chief William E. Marks issued a statement appealing to Marion citizens to help curb juvenile delinquency by removing the keys from parked cars, thereby removing temptation from children with a yen to roam.

GOP incumbents were Edward O. McCowen of Wheelersburg, Frederick C. Smith of Marion, Thomas A. Jenkins of Ironton, Walter E. Brehm of Logan and Henderson H. Carson, who won in a walk.

The Democratic incumbent Robert Crosser of Cleveland, held a heavy margin over three opponents in the 21st district.

Hamilton Lady Lost 25 Lbs. Doctor Advised Rennel
Mrs. Gordon L. Korb 715 Coralie Ave., Hamilton, Ohio writes "I am 54 years old and with the advice of my Doctor I have been taking Rennel Concentrate. To date I have lost 25 lbs. without doing any dieting. Rennel keeps me from bloating and I would recommend it to any one who is obese and unsightly."
Hundreds of others have obtained similar relief from the social and physical discomfort of being overweight. Rennel is the original grapefruit juice recipe for taking off ugly fat. It's simple. Just go to your druggist and ask for 4 ounces of liquid Rennel. Pour the contents into a pint bottle—add enough grapefruit juice to fill the bottle. Then take just two tablespoonfuls a day. That's all there is to it. If the very first bottle doesn't show you the simple, easy way to lose bulky fat and help regain slender, more graceful curves—if reducible pounds and inches of excess fat don't just seem to disappear almost like magic from neck, chin, arms, bust, abdomen, hips, calves and ankles, just return the empty bottle to the manufacturer for your money back. You need never know a hungry moment while taking Rennel—no starvation diet—no printed diet list to buy—no vitamins to fortify you against weakness while going hungry, for you WON'T be hungry. Don't be switched to another product. Insist on and obtain genuine Rennel.

THE GRAND TOUR OF QUEBEC

QUEBEC, P. Q. (1948) In the 17th and 18th centuries it was the habit in England for the wealthy to send their young folks upon what was called The Grand Tour, which included most of the cultural centres of Europe. This was considered a finishing course to the education of the young nobility of that period. While it is not obligatory to the education of North Americans, a trip through what might be termed the "Grand Tour of Quebec" is a memorable event indeed. Here is a friendly "other world", overnight by train from New York City and Boston, little altered in the last 300 years and certainly one of the most historically significant areas of the entire new world.

The "Grand Tour of Quebec" is best made by automobile, but train, plane as well as excellent bus connections do carry heavy traffic. It is only 50 miles from the U. S. A. border to teeming, French-speaking Montreal, a vast island city in the St. Lawrence. Here the atmosphere changes, transporting one in a short hour to a real continental industrial centre. From the moment of entry into Quebec one notes the way of life, the quaint French-Canadian architecture, the roadside shrines, evidence of a profoundly devout people, the inevitable towering churches even in the tiny villages. Once in Montreal historical highlights vie with the gala modern stores and the gay life of this great hub of year-around tourism.

From Montreal, the 160 miles journey down the magnificent St. Lawrence gives the visitor a scenic thrill never forgotten; Sorel, the great ship-building centre; Trois-Rivieres, the wood pulp capital, sleepy little "picture" villages, panoplies of carefully-tended fields and farms running like a neat quilt along the stately river to the Old World Capital, itself.

Quebec City is almost indescribable without booklength space, the Plains of Abraham; the mighty Citadel, the lofty Chateau Frontenac, the world's smallest church; the narrowest street, curios, blockhouses of the Wolfe-Montcalm era, nearby Ste-Anne-de-Beaupre, miracle place of the devout, visited by a million tourists annually.

Thirteen miles away stands lovely Lac-Beauport, a new and delightfully modern evidence of French-Canadian hospitality where in winter and summer, skiing and water sports, see the calendar around in profusion of events ranging from international ski racing, to colorful regattas.

Down the St. Lawrence by river highway again; the north side drive to Murray Bay (La Malbaie) location of the famous "Newport of the North", the Manoir Richelieu; across to Riviere-du-Loup, by ferry, then down the river to Gaspe peninsula. Here is some of the most beautiful scenery of "La belle Province". All through this drive, skirting north of the Notre-Dame mountain escarpment, along the widening Gulf of St. Lawrence and bordered by the Baie des Chaleurs on the south are found innumerable rivers, lakes and streams, where the fisherman may enjoy the untouched haunts of battling lake trout and that "prince of gamesters", the speckled trout. This, then, in the brief is "The Grand Tour" of Quebec. No-one who has ever planned such a trip will forget his sojourn into one of the most historically rich, sportingly replete, traditionally quaint and scenic portions of the entire North American continent.—Adv.

Your Good Health

By DR. HERMAN N. BUNDESEN

A Rare Type of Pregnancy

A strange and fortunately rare state of affairs is signified by the words "Ectopic Pregnancy."

In the usual circumstances, the baby grows in his mother's uterus or womb, a structure ideally suited to shelter and nourish the developing child But, sometimes for reasons still unknown, the new being beings his growth in the fallopian tube, where he has neither space nor the blood supply needed for full development This is the condition known as ectopic pregnancy

As a rule, the patient will have missed one or more of the regular periods and will believe that she is pregnant However, she does not feel well and will have colicky pains in the lower part of the abdomen from time to time She also may feel faint on occasions

This condition is difficult to diagnose In some cases, there is severe internal bleeding because the tube ruptures However, while the symptoms will indicate that there is some condition of the abdomen that requires emergency treatment, its exact nature may not be suspected In these instances immediate operation is advisable, for in this way the condition is discovered and the woman's life is saved

On the other hand, when the symptoms are not so severe, there is often a tendency to wait to see what develops rather than to carry out an immediate operation In such instances, there is always danger that sudden and severe bleeding may take place and under such conditions operation becomes more hazardous

It would seem that the safest course to pursue is to have an operation done wherever it is believed that an ectopic pregnancy has occurred

During the operation, the affected tube, as a rule, is removed, since, if it was responsible for the development of the ectopic pregnancy in one instance, the condition might occur in a subsequent pregnancy

It is important that the occurrence of ectopic pregnancy be borne in mind so that if symptoms suggesting it develop, operation may be promptly carried out thus resulting in the saving of life.

Andy says: I am not a friendly philosopher but an independent merchant making a living in Marion by operating a corner super market. The Jackson's Super Market is more than the name implies . . . It is one of the larger independent markets in Marion . . . You can compare our prices on nationally advertised brands of merchandise and find them on the same level or below of any Marion market. We, like other markets must follow the markets and we cannot control the prices. We do not tell the farmers how to market their produce, but set our prices accordingly. Prices rise and decline on seasonable merchandise and we cannot control that. We make an honest effort to satisfy our customers in quality, quantity and price. So stop in at Jackson's Super Market and get acquainted with our sincere policy of serving you.

Few Contests In Delaware County

Special to The Star

DELAWARE, May 5 — In a county race which featured only three contests, all on the Republican ticket, the nomination of two candidates for county commissioner attracted principal interest.

Voting for Republican nomination for commissioner with two to elect was as follows: Conklin 1,913, Jenkins 1,227, Pocock 960, Thompson 872, Miller 614, Lugger 427, and Graham 166.

For county engineer Ray E. Watson (R) led Harold T. Pugh (R) 1,928 to 1,138.

The remaining county contest was the Republican race for nomination of representative to the general assembly which was led by Walter G. Penry with 1,868, trailed by Arthur J. McClary 596, and W. C. Carter 587. All other Republican candidates were unopposed. There was no contest in the county for any Democratic nomination.

BUILDING PLAN BEFORE BOARD

North State Junior High Preliminaries Now Under Way.

Discussion of plans, principally those dealing with the proposed junior high school on the site of the old North State Street building, occupied the major portion of the monthly business session held by the board of education Monday night at the administration building.

Some changes in the plans will be gone over with the architect in the near future and the board again will take up the building program. In the meantime steps are going forward for the erection of the school, the most recent being purchase of an adjoining lot to the north. Purchase of another lot is in progress and plans are under way for acquiring a third piece of adjoining real estate.

To Buy Furniture

The board authorized purchase of tables and chairs for use by 40 pupils at Central building next year by way of a tryout for finding the most suitable methods of seating. This also is in anticipation of the development of plans in the new school building program.

Upon recommendation of Supt. L. L. Dickey, John Beer, shopman at Harding, and George Whitehead from Edison Junior High school, were employed by the board to be in charge of maintainance and repair work for the annual rehabilitation program throughout the summer. Approval was given resignation of Harold Clifton, custodian at Silver Street building and appointment of Eugene White as his successor.

Reports on Bleachers

In making his report Supt. Dickey presented the athletic board's decision against placing of additional bleachers at Harding Stadium this season.

Plans were discussed for the annual commencement exercises and closing of the school term. Commencement will be June 3. It was announced that since Memorial day falls on Sunday this year and the exercises will be held on that date, schools would convene for regular sessions on the following Monday instead of observing the day as a holiday.

RESERVE OFFICERS' INSTALLATION HELD

Seat New Leaders; Co. Eagon of Delaware Speaks.

Newly-elected officers took over their duties at a combined dinner and program meeting of the Marion Area Reserve Officers association, Tuesday night at Hotel Harding. The business session was preceded by a dinner in the Marion clubroom.

Lt. Col. Frederick T. Merchant was installed as president, Capt. John Turner, vice president and 1st Lt. David Pollak, secretary.

Col. Hubert L. Taylor gave a report on the 23rd annual convention of the Department of Ohio, Reserve Officers Association of the U. S., held last week-end at Canton.

Speaker for the evening was Col. Herbert Eagon of Delaware, recently of the War College at Washington, D. C., gave a talk on intelligence and subversive activities. He stressed the fickleness of public opinion and described in detail the pattern Russia uses to take over the governments of countries which were her neighbors. He also compared these happenings with incidents occurring in Ohio. Chaplain Dayton of Lancaster, who served in the armed forces during World War II, also spoke from his religious experiences.

Theaters Cooperating For Nat'l. Music Week

For Music in Theaters, part of National Music week observance here, managers of local theaters are cooperating by presenting musical short subjects or musical feature pictures, Miss Dorothy Buckley, chairman for Music in Theaters, announced.

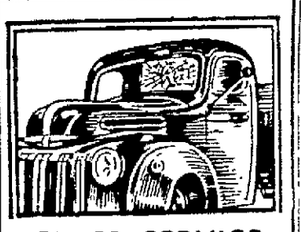

At the Palace theater, a stage concert of the Community Concert series, was presented last night. A musical short, "Melody Aires," is being run this week at the Ohio theater. At the Joy theater, a featured short is on Jan Savitt's orchestra. For the first half of the week the Drive-In theater had as its feature picture "The Shocking Miss Pilgrim" which features Gershwin music.

Cards Follow Old Custom—Win at Night and Win the Pennant

St. Louis Drops Dodgers, 5 to 4, In Night Game

By The Associated Press

The St. Louis Cardinals this season are following an old National league custom—win at night and you win the pennant.

That proved to be the winning formula in 1946 and 1947. The Redbirds were the best night owls in '46, winning 32 and losing 22 for a .593 percentage Brooklyn was second at night, 12 percentage points behind. The end of the season found the Cards nosing out the Dodgers in a playoff for the flag by almost the identical margin—13 percentage points.

Other Way Around

Last year it was the other way around. Brooklyn had the best night game percentage, .703. The Cards were second with .689. That's the way they finished during the regular season—one-two

The Cardinals have played twice under the lights this season, and won both times. They gained their second victory last night, defeating the Dodgers in St Louis, 5-4. Last Saturday they whipped the Chicago Cubs, 4-0.

The Cards take undisputed possession of third place, a full game ahead of the fourth place Dodgers

That was the only National league game yesterday.

The hustling Philadelphia Athletics gained ground on the American league-leading Cleveland Indians when they nipped the Tribe 8-6 in 10 innings at Philadelphia. The two teams are even in games But the Indians lead by 52 percentage points, having played fewer games.

The New York Yankees moved up to third place, within a half game of the leaders, by thrashing the St. Louis Browns 6-1 at the Yankee stadium.

The Boston Red Sox registered their third successive victory as they pasted the Detroit Tigers 6-3 at Fenway park

In the American league's only night game, the Chicago White Sox scored two runs in the top of the fifth inning to tie the Senators in Washington 3-3 Rain ended the game at the end of the fifth.

Rain Halts Cubs, League

Marion marked time along with the other Ohio-Indiana league baseball teams yesterday as rain and wet grounds forced postponement of scheduled games in the Class D circuit.

The Cubs, rained out at Springfield, will try the Giants again tonight They'll be home tomorrow for a two-game series with the Portsmouth Athletics and the game time tomorrow will be 15 minutes earlier than before—at 7:45 p. m. instead of 8.

Other Ohio-Indiana league games tonight are: Lima at Portsmouth, Zanesville at Richmond for a double header, and Newark at Muncie for a twin bill.

Ramon Peet, with a victory over Richmond to his credit, will be on the mound for the Cubs tonight against the Springfield Giants

The Cubs will be trying for their fourth win in six starts. The Giants have won three and lost one which puts them in a second place tie with Portsmouth in the league. Marion is fourth while Muncie leads with a five-one record.

Yesterday's Stars

By The Associated Press

Batting—Enos Slaughter and Stan Musial, Cardinals—Each homered to give the Redbirds a 5-4 victory over the Brooklyn Dodgers.

Pitching—Alpha Brazle, Cardinals—Relieved George Munger in the fourth inning and pitched six-hit ball the rest of the way as the Cards overcame a 2-0 deficit to defeat Brooklyn 5-4.

BASEBALL QUIZ — Baseball fans need no identification of this diamond immortal as he looks out of dugout in Forbes Field at Pittsburgh, Pa. Of course, it is Honus Wagner, Pittsburgh scout and coach and generally regarded as the greatest shortstop who ever lived.

City, Baseball Club OK Lease

The Marion Baseball Club Co. (the Cubs) and the Board of the Park Commission of the City of Marion yesterday agreed on a lease of the Lincoln park baseball field which will run for 10 years beginning last April 1, and which will cost the baseball club $13,500 over the ten year period in rents and improvements.

The Marion Baseball Club agreed to pay rent at the rate of $500 per year for the first five years and $200 per year for the last five, and in addition agreed to make permanent improvements upon the premises of the ball field and grandstand to cost not less than $10,000 during the term of the lease.

It was further agreed by the Baseball Club that it would permit, without cost and on approval of the park commission and the Marion Baseball Club Co., the use of the ball park, when the baseball club is not scheduled to play in Marion, for civic functions by any local civic organization, providing such civic organization cause no damage to the premises or playing field, and providing that the civic organization agree in writing with the Marion Baseball Club Co. to return the ball park in the same condition as that in which it was found.

The agreement, filed in the recorders office yesterday, was signed by Henry P. Drake, Robert T. Mason, and W. Leonard Young of the park commission and W. Dexter Hazen and F. R Coss of the Marion Baseball Club Co.

Other covenants of the lease were that the baseball club would pay water and electric light bills charged to the park, would keep it in good shape, would use the premises for playing baseball games, and would furnish liability insurance to protect the city from damage or liability suffered by any person lawfully on the premises.

The lease will become void if ownership in the baseball club becomes concentrated in four or less individuals or in any firm or business outside of Marion

It was agreed that the lighting equipment, transformers, light bulbs, etc, and the PA system, box seats in the grandstand, bleachers and other such property is the property of the Marion Baseball Club Co and can be removed if the lease is terminated.

The new lease terminates the old one which had a year to run.

Sports Shorts

By BILL DIEM
Star Sports Editor

IT WAS A former Marion boy who first thought catcher Thomas Ray Gatts of Miamisburg, O., might make the grade in professional baseball. Gatts, who came to the Marion Cubs on his own for a tryout April 5, was the catcher on an amateur baseball team managed by James H. Colbert, who had married a Marion girl, Alice Kull, and lived in Marion until moving to Dayton several years ago.

Colbert was so impressed with Gatts' performance behind the plate that early this year he wrote a letter to Judge "Dec" Hazen, president of the local ball club, saying he would bring the boy to Marion in March for a talk with Hazen about the possibility of signing up the boy.

But Colbert never got a chance to introduce Gatts He was killed in a fall from an electric line pole he was working on in Dayton just a week before he was to have brought him over.

IT FELL UPON Carl Kull, Colbert's brother-in-law, to introduce the promising 19-year-old catcher to Hazen The judge tried to discourage the stubby, five-foot-seven hustler, saying the Cubs already had a catcher in Manager Zeke Bekeza.

But Gatts would not be discouraged "I'll make good," he said, and he did He was signed after a week in training with the Cubs and has been behind the plate in every game.

Gatts graduated from Centerville High school in 1946, where he had played baseball and basketball and was on the track team. He entered Miami university in the fall, and tried out for the Redskin baseball team, but was cut after the first day out. He played amateur ball around Dayton for two summers and was to have gone to Tony Lucadello's baseball school in Mansfield last fall, but the weather turned cold before he could make it.

GATTS HASN'T yet shown the hitting strength expected of him, making only three safeties in 17 trips for a low .176, but the Cubs are high on his hustle and backstopping No ozone for Gatts, he's but five feet, seven inches high, weighs 160 At the plate, he stands with his feet close together and uses a lot of wrist action. He bats as he throws, right-handed.

Big Car Race Set At Tiffin Sunday

TIFFIN, O., May 5 — Big car racing fans will gather at Tiffin next Sunday when the Tri-State Association opens the season on the Seneca county fairgrounds track.

Seven events are on the program which is expected to draw some of the nation's top-flight drivers, due to the desirability of the local track and the large cash prize list.

Starting with the time trials at noon, the program will move swiftly into the usual three six-car elimination races, helmet dash and consolation event.

The grand finale of the day will be the 20-lap feature race which will include the ten fastest cars on the track.

Boudreau Juggles Lineup In Effort To End Slump

By The Associated Press

PHILADELPHIA, May 5—Manager Lou Boudreau juggled his lineup today in an effort to pull the Cleveland Indians out of a three-game losing streak.

The Tribe pilot said Hank Edwards would replace Larry Doby in right field and rookie Joe Tipton would go behind the plate instead of Jim Hegan in today's game with the Philadelphia Athletics.

Insertion of Edwards and Tipton in the lineup marks the third change Boudreau has made since last Sunday when Dale Mitchell went to left field in place of Allie Clark. The latter will be used in left when southpaws face the Indians.

Bob Feller drew the hurling assignment today, seeking his third victory.

Eddie Joost's 10th inning home run with two out and Pete Suder on base gave the Athletics an 8 to 6 triumph yesterday and left the Indians clinging by a shred to the American league lead. The Athletics trail by percentage points only. Cleveland has a .667 average and Philadelphia has 615.

Charlie Wensloff, the fifth and last Cleveland hurler, was on the mound when Joost connected for the circuit and was charged with the loss

Eddie Robinson of the Indians and Sam Chapman of the Athletics also delivered home runs

EVEN FANS ENTER HOT AA BATTLE

By The Associated Press

The battle for the American Association lead is becoming so hot that everybody wants to get in on the act, even the fans.

The customers did some pitching at St. Paul last night. They began tossing pop bottles as the Saints defeated the league-leading Indianapolis Indians, 4-2.

In the first half of the sixth inning, Umpire Bob Austin thumbed the entire non-playing St. Paul team from the dugout, including Manager Walt Alston. This gesture climaxed Austin's eighth inning act of tossing out pitcher Morrie Martin for protesting too strongly on a called fourth ball. Martin got credit for the win when veteran Slick Coffman replaced him and set the Indians down in order the rest of the way.

Minneapolis also won, walloping Toledo in a battle of home runs, 11-5.

The Millers and Saints remained deadlocked in second place with 12-7 records, two games behind the Tribe.

Out of 26 hits in the Minneapolis-Toledo game, eight were homers. The Millers' Chuck Genovese and Toledo's Dick Kokos each belted two. Bama Ray collected his eighth of the season for Minneapolis and Don Wheeler also hit one for the winners Frank Mancuso and Don Richmond whacked one apiece for Toledo.

At Milwaukee, the Brewers bested Louisville 6-4 with Al Epperly pitching and batting the way to his third straight victory.

hings on Up-Beat for Jockey fter Alleged 'Doping' Episode

By International Press Service

YORK, May 5—Thoroughbred racing might still have ... knees and a watery look in the eye from its insulin-... to the news that a great name of the turf had been ... an alleged "doping" episode.

... seemed strangely ... -beat today for Earle ... the wistful little boy ... ing exploits had the ... of the 20's gaga and ... pedestal space in any ... greatness with the ... Harrisons and Isaac Mur-

... as owner-trainer, re- ... per se, ruled off all ... race courses for 60 ... under somewhat ambiguous ... But in other re- ... pro-Sande sentiment in ... with Big Stage's win- ... an April 21 race at Jamaica began accumulating overnight.

Penalty Mild

For one thing, the Jockey Club's penalty was suggestively mild. Its overtones, in fact, were expected to affect the attitude of federal authorities in conducting narcotic charges, for which Sande is liable to a 2-to-5-year jail term.

The Jockey Club frankly admitted "reasonable doubt" in its case against the once-great rider, whose integrity never before was in question.

A saliva test, taken after Sande's horse won at $12.50, was said to have yielded a trace of caffeine and some morphine derivative. This, according to Sande's testimony, was administered as a stimulant before a Saturday workout; not before the actual race on the following Wednesday.

The Jockey Club's light sentence was taken generally as tacit evidence of the stewards' acceptance of this version and their tendency to place credence in Sande's claim that he was unaware he was administering a narcotic.

Sande Silent

Sande himself said nothing. So the question of whether Sande would continue in racing after his suspension is lifted or dispose of his 12-horse stable remained unanswered.

Meanwhile, the only definitely sour note was sounded by unofficial reports that the Derby's triple-winner had suffered heavy financial reverses.

Ole Roemer, in Paris in 1676, first deduced that light travels at a definite speed by observing the eclipses of the planet Jupiter.

Says Wrestling Bouts Not Fixed —Just Staged

By The Associated Press

NEWARK, N. J.—Here's a man who'll defend the manly art of wrestling to the end. He's Willie (The Beard) Gilzenberg, who divides his time between promoting wrestling and managing boxers.

"The public comes to see a show," avers Willie, "and we give it to them. The people in the audience don't take things seriously, so why should we?"

The Beard, who currently is guiding the destinies of former fighter Tony Galento in the wrestling business, claims the combatants never know who is to win any particular event.

Wait a second, now, and give Willie a chance to explain before you blow your topper.

"The wrestlers are sent to various arenas by a central booking agency," he says. "They get postcards with their week's work written in. The individual wrestler never knows his opponent until he meets him in the locker room, and then the pair is merely told to put on a good show by the equivalent of a stage director."

Willie says the wrestlers like to make the public happy because they work on a percentage of the gate. When they make repeat appearances the customers will return if their earlier shows have been up to snuff, says Willie.

Rural Electric School To Be Held in Marion

Marion will be the site of one of six live-line maintenance schools being co-sponsored by the state education department this spring for employes of Ohio Rural Electric Cooperatives, according to an International News Service dispatch.

The Marion school is scheduled for May 25-27 and will serve the Kenton, Marysville, Delaware and Mt. Gilead cooperatives.

Clyde Hissong, state director of education, said his department would work through its vocational education division with Ohio State university, covering all basic parts of live-line work.

EXPLAINS ELECTION BOARD

GALION — A timely subject was used by Carl Baker when he addressed the Galion Kiwanis club Tuesday noon. He spoke about the functions of the Crawford county election board, telling of arrangements for elections, supervising, and the count made at the close of an election. A question period followed. Mr. Baker substituted for A. H. Weis of New Washington, head of the election board, who was unable to be present.

The President of the United States must be more than 34 years old.

New York Stock Quotations

By The Associated Press

NEW YORK, May 5 — Strike jitters tilted the stock market lower again today.

Prices on many pivotal rails and industrials backed down narrowly.

Scattered tidbits of favorable news were virtually ignored. After hitting a moderately active pace, dealings slowed at times.

Depressed were such issues as Central Railroad of New Jersey, Southern Railway, New York Central, Du Pont, Dow Chemical, International Harvester, Studebaker, General Motors, Kennecott, International Paper, Twentieth Century-Fox, Loew's and U. S. Rubber. Shows of resistance were made by Standard Oil (N.J.), Packard, American Woolen and Republic Steel.

75 registered and grade Holstein cows and heifers. (Both fresh and springers.)
There are cows in this offering with records of production of 400 lbs. and over of butterfat. Many heifers classified 'very good.' All the registered are imported from Canada. All the well known and better blood strains will be represented. All registration certificates transferred free of charge. Four generation pedigrees furnished.
CALVES SOLD SEPARATELY
The grades are purebred Canadian Holsteins, but cannot be registered. Their ability to produce profitably is very evident and with the abundance of fresh pasture available, this is an opportunity to increase the herd or make replacements at the right time.
The majority of the entire offering are first and second calf heifers. Many are calfhood vaccinated. State laboratory tested. The balance are young cows.

TODAY'S BIRTHDAY

By AP Newsfeatures

GEOFFREY F. FISHER, born May 5, 1887, in Nuneaton, England, is the 97th Archbishop of Canterbury. He had little more than 12 years episcopale experience when he was enthroned at 57 in 1945. He started his career as a schoolmaster. While teaching at Marlborough (one of England's public schools) he was ordained deacon and priest. After years of service as head of Repton School, he was named Bishop of Chester. As Archbishop he officiated at Princess Elizabeth's wedding.

One Man's Opinion

By WALTER KIERNAN

There is news of a Danish sailor who lived 111 years as a bachelor . . . Then he married and was dead at 140

Let this be a lesson to all single men.

Actually they don't know whether he lived that long because he was a Dane, a sailor or a bachelor . . . And until we find out we will continue to issue marriage licenses to reckless young men.

All I know is that 29 years of married life and he was snapped into his shroud . . . Just when he was going good.

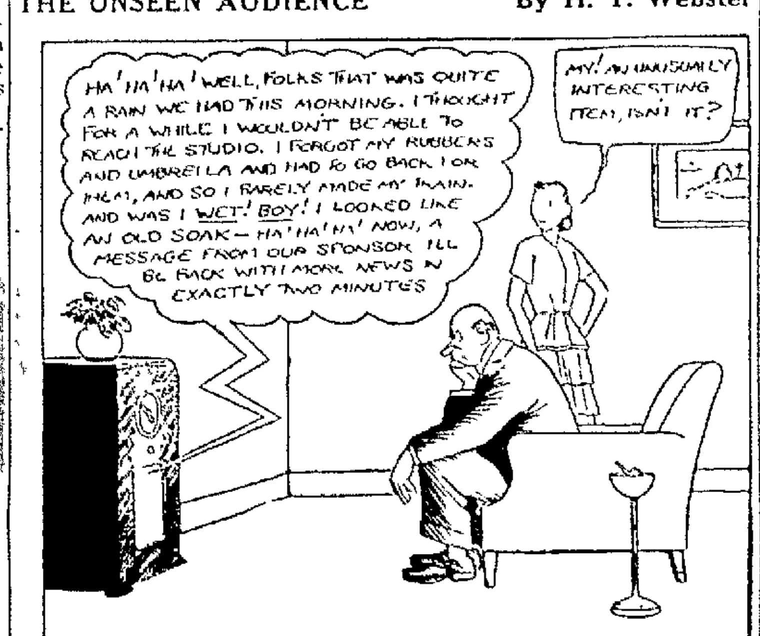

There's no telling how long he might have gone on had he stalled off the bridal match for another 50 or 60 years.

But this should settle the question of whether or not a man can live alone and like it . . . For the first 111 years the answer is "yes."
